

CORONAVIRUS DISEASE 2020

Community Gatherings

Considering a group gathering outdoors during COVID-19?

Outdoor gatherings with a small group of people (picnics, visits to public parks, household celebrations) can be a low risk social activity. Large group gatherings (outdoor concerts, powwows, and holiday celebrations) can pose a higher risk of exposure. Remember to continue proper mask usage by placing a clean mask over your nose and mouth and practice 6' social distancing to stop the spread of COVID-19.

Tips on indoor activities and gathering!

Minimize the amount of trips you take to get essential items from grocery stores, pharmacies, gas stations, and other essential businesses. Remember to follow the safety measures, posted signage and guidelines of individual businesses, continue proper mask usage, and practice 6' social distancing to stop the spread of COVID-19.
